Solitity Implementation Guide & Funding Strategy

Phase I: Technical Deployment

1. Local Development Setup

Clone the GitHub repo: https://github.com/YourRepo/Solitity

Install Node.js, Yarn, and Hardhat

npm install

Compile contracts: npx hardhat compile

Deploy locally: npx hardhat node

2. Deploy to Testnet

Setup .env with testnet RPC + private key

Choose network: Mumbai (Polygon), Osmosis testnet (Cosmos SDK), or Shimmer testnet (IOTA)

Deploy contracts: npx hardhat run scripts/deploy.js –network mumbai

3. Frontend Integration

Use Next.js + TailwindCSS (already scaffolded)

Connect wallet using RainbowKit or Wagmi

Display modules: ProposalManager, SolitityToken, SolitityExchange, ReputationScore, etc.

Phase II: Smart Contract Activation

4. Initialize Roles + Permissions

Use OpenZeppelin Defender UI or scripts to assign roles (Minter, Verifier, Executor)

5. DAO Genesis Setup

Deploy Snapshot space or integrate on-chain governance module

Set initial members, treasury wallets, and community delegate list

---

Phase III: Community Rollout

6. Launch Utility Feed (Socity Layer)

Seed with your newsletter business

Let users earn by posting utility proof

Setup AI Tipping Oracle

7. Business Onboarding

Draft transparency checklist

Issue wallets + payroll modules to employees

Record DAO proposal for post-onboarding listing

Phase IV: Fundraising & Growth

8. Public Prelaunch Page

Launch via https://typedream.com or https://framer.com

Use waitlist (https://getwaitlist.com)

9. Token Funding Strategies

Apply for grants:

Polygon Ecosystem Fund

Celestia Foundation Grants

Gitcoin Rounds

Launch Token via:

CoinList (utility + revenue tokens)

DAOHaus or Juicebox

Phase V: Scaling and Future Development

10. Mainnet Launch

Deploy final contracts to Polygon zkEVM + Cosmos/Avail (modular)

Bridge microservices to IOTA where needed (tipping layer)

11. Cross-Chain & Mobile

Use Chainlink CCIP or Axelar for bridging

Wrap frontend with Expo + deploy to iOS & Android

This guide serves as your complete Solitity launch manual—covering tech, treasury, DAO, and token activation from zero to global scale.
